Turning dreams into realities

You don't have to move to live in your dream house. With Cavendish you can transform your existing home by turning your dreams of a new kitchen or bedroom into a stunning reality.

That's what we have been doing at Cavendish since we identified a gap in the market for top quality, bespoke kitchens at affordable prices back in the 1980s.

We are a local company, owned and run by local people. Our aim is to offer you the best of everything - design flair, quality products, outstanding craftsmanship, the widest choice, genuinely competitive prices and an unrivalled after sales service.

Bespoke furniture that balances style with function

Benefiting from our state-of-the-art machinery and production techniques, we are now able to offer a bespoke colour service on selected ranges, producing kitchen, bedroom, study or media furniture to your personal specifications.

We can match any Farrow & Ball, Fired Earth, Dulux or RAL colour, so simply bring in a sample of your desired colour and we will bring it to life.

KITCHENS

Is your kitchen the heart of your home?

The secret of a quality kitchen design is building it around you and your family.

That's why every single kitchen we offer is designed with you in mind. Your needs. Your budget. Your choice of design and materials.

And we're with you every step of the way with guidance and advice on best use of colours, most effective layout, and the most efficient use of technology.

COLOURMATCH KITCHENS

With our new Colourmatch range the possibilities are endless. Almost everything in a kitchen can now be chosen from a selection of options – Except colour.

Our in house production facility gives you the unique opportunity to make your own mark, to not just choose from a selection of options, but to ensure an end product truly unique to you.

Your **kitchen**. Your **colour**.

CONTEMPORARY AND CLASSIC

Prefer something a little different? Look at our more contemporary or classic kitchens - the perfect way to make your kitchen suit your personality.

If you prefer a modern outlook on things and enjoy using technology, a contemporary kitchen can be an extension of your lifestyle, and provide you with a design centred on elegant simplicity.

Alternatively, if you prefer a rustic, homely appeal to your kitchen, classic options allow you to build that cosy cottage feel, even in a metropolitan city centre.

Either way, if a sense of past or future has an influence on you, our Contemporary and Classic range may have what you've been looking for.

BEDROOMS

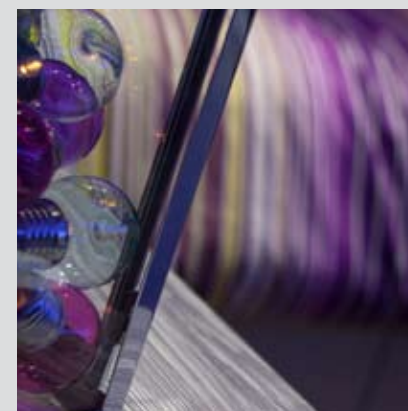

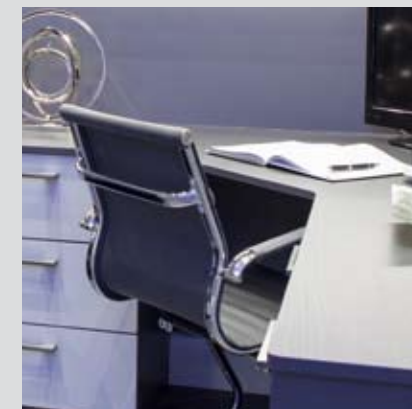

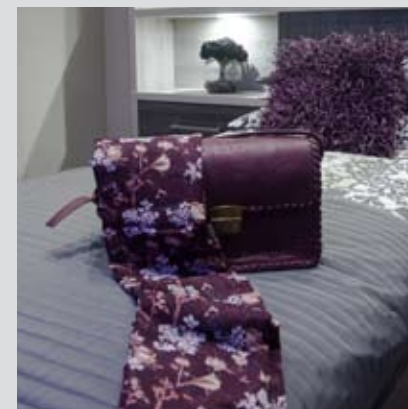

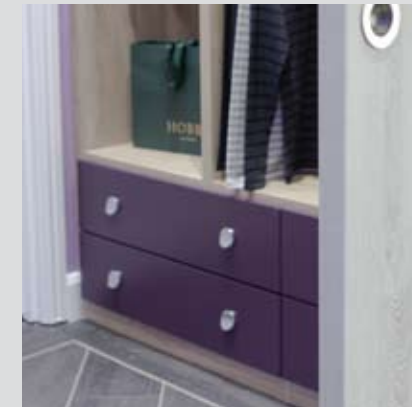

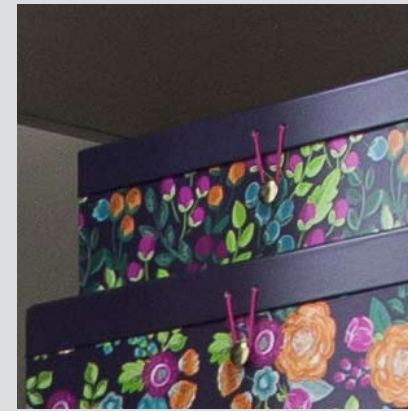

We pride ourselves in helping you achieve the dream room you want whilst maximising the full potential of your space.

We want you to be inspired by your bedroom. It's your space. Your private sanctuary of peace.

That's why our bedrooms will always reflect your ideas, giving you a room you'll want to relax in.

Whether you'd prefer a sea of rich purple or a mix of greens, our in house production facility can ensure your bedroom is designed with the colour you brought us, not one simply selected from a range.

Your bedroom is the most personal room in the house. Make it uniquely yours.

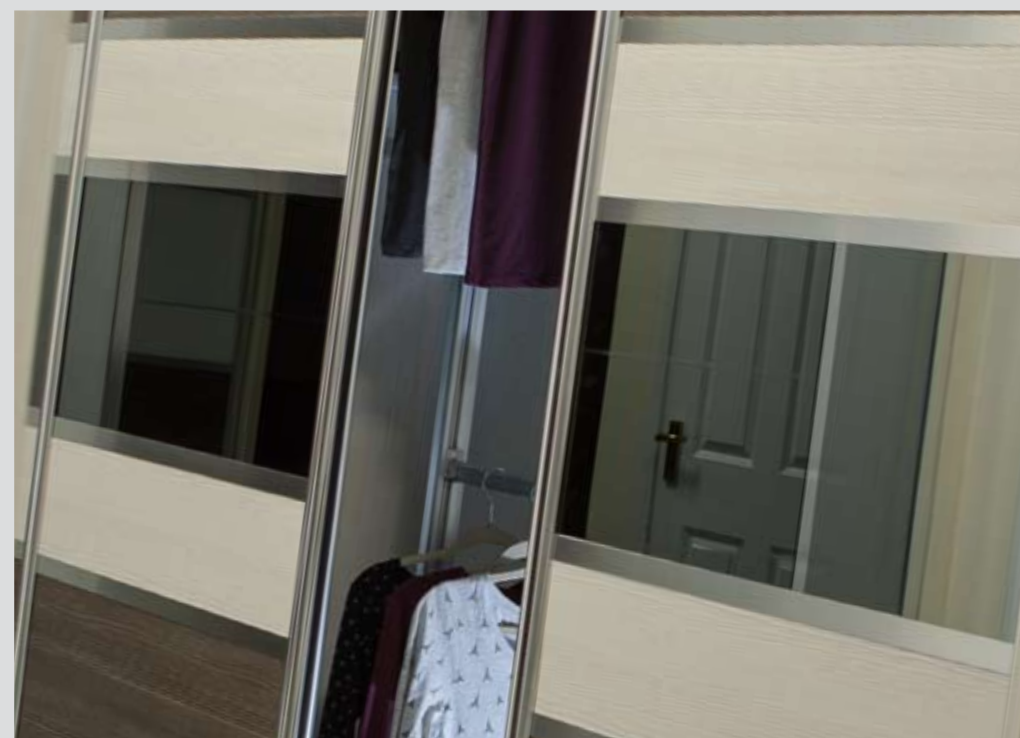

SLIDING DOORS

Our customisable doors offer a myriad of styles, colours and materials, giving you the freedom to configure your doors to suit the room in which you place them.

Whether you want only decorative wood panels with brushed metal borders, mirror panels only at head height, or even the ability to choose a precise colour for any panel thanks to our in house production facility, Cavendish can offer you the freedom of choice.

You've designed the room around them. Now design your own doors.

CUSTOM BUILT OFFICE

With more and more people now working from home, having a comfortable space to work in has become crucial.

‘Off the rack’ desks tend to utterly fail in this regard, being designed for huge open office spaces rather than the more personal and often inconveniently sized rooms we use at home. A custom built office on the other hand allows for a vast range of quality of life improvements to be included in the design.

Want easy to reach sockets? We can make a tower of them rise from the desk surface.

Want to choose exactly where you put your monitor? We can install cable management systems anywhere.

Want easily hidden storage? Internal filing drawers make it an organisational dream.

If you’re already designing work around your life, why not design your office around it too?

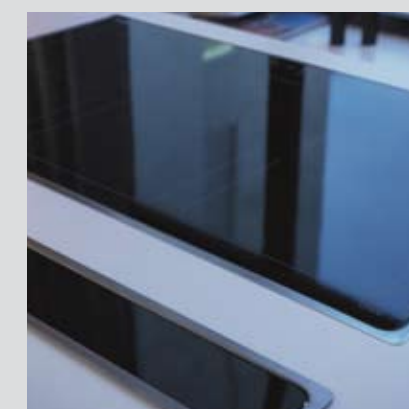

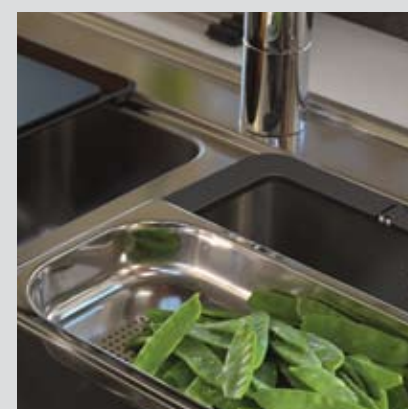

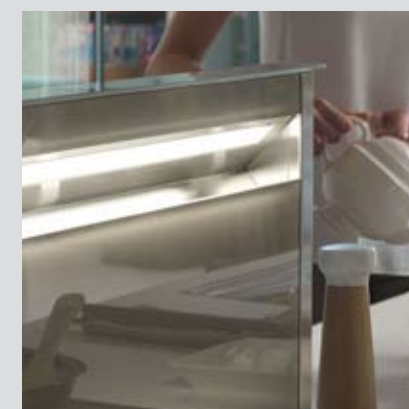

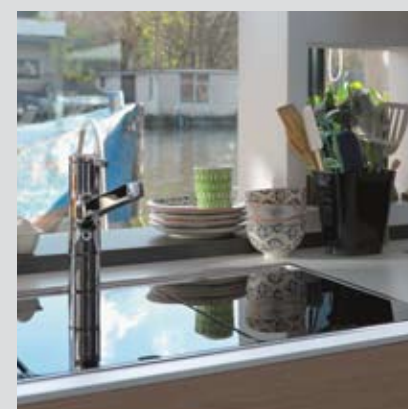

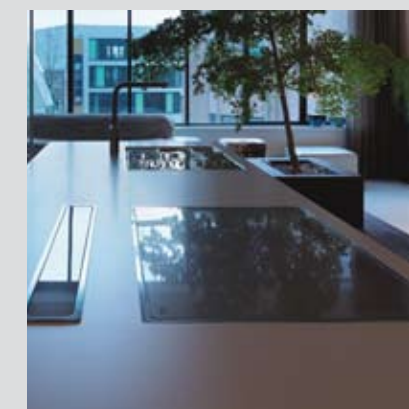

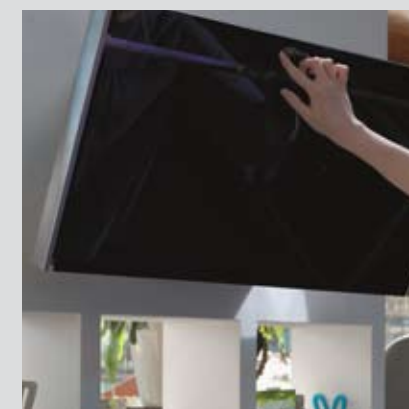

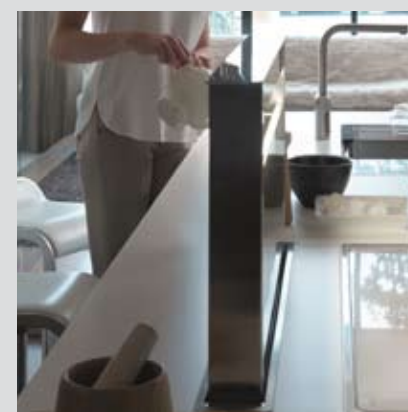

Frames by Franke is the revolutionary 24 hour kitchen system. It integrates all Franke product groups around the key elements of every kitchen – hob, oven, hood, sink and tap – into a single brilliant system. No matter which combination you choose, everything fits together wonderfully and feels unified.

Each element is designed and engineered to work together seamlessly and to enable a perfect workflow. At last, you'll have a kitchen that is as stylish and beautiful as it is functional and connected.

Frames by Franke

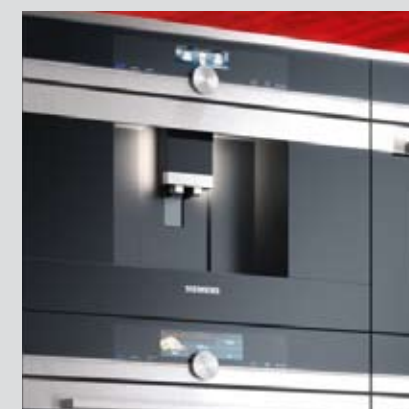

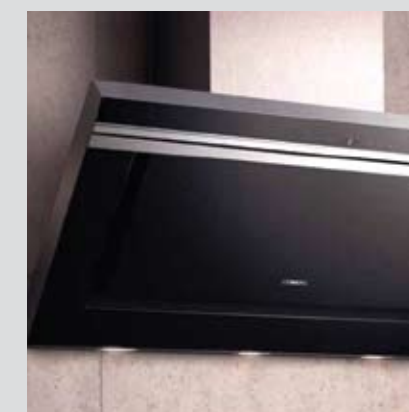

EXPERIENCE PERFECT BUILT-IN DESIGN FROM SIEMENS

Seamless design that complements every kitchen. All appliances in the Siemens iQ700 Built-in Appliances Range can be combined perfectly with each other. The iQ700 ovens, compact ovens, coffee centres and warming drawers all line up thanks to coordinated front panels. It doesn't matter whether you arrange the appliances horizontally or vertically: the result always pleases the eye. Even our iQ700 hoods have the same front panel design for a coordinating look throughout your kitchen.

Each oven features blue illuminated hard key buttons, integrated into a sleek, chrome-effect strip that provides the most important operations from turning the oven on to starting your cooking.

The central stainless steel disc control is a constant design feature across the range, with a precise operation that clicks when rotated to give you ultimate satisfaction when using each appliance.

Combined with the touchscreen navigation, this method of operation is both familiar and intuitive. The trend-setting iQ700 ovens feature a smaller profile oven door handle that blends into the stainless steel panels to offer more flexibility with handleless kitchen design, yet still having the highest build quality & feel. While the precise lines of the black glass and stainless steel create a definitive aesthetic worthwhile of any modern kitchen.

Inspired by nature and designed for living, you'll find Karndean floors are beautifully realistic and highly practical.

By offering a wide and impressive range of designs, finishes and formats, you can create a floor that's unique to your home and guaranteed to last for years to come.

Karndean Design flooring

Make a border around your kitchen cabinets and/or island. Karndean Design flooring offer numerous options for personalising your floor.

ST12 △

ST12 ▷

When visiting Cavendish Kitchen & Bedrooms you can expect the following:

- To see the full range of Karndean Design flooring in store
- A design consultation with specialist staff
- A free quote and measure appointment
- Experienced Karndean fitters.

WP413 ▷

SP111 △

Karndean floors are warmer and softer underfoot than natural stone and wood flooring meaning you can still pad around barefoot, even in the winter.

Flooring in a hurry?

Not every project will involve a complete remodel. If you're not looking to overhaul your space, a lick of paint and a new floor can be all you need to transform your room. Karndean LooseLay is quick and easy to install, and can be laid over most existing floors.

KP103 △

Using Karndean in a bathroom gives you the look of wood or stone, but with more warmth and comfort under foot. Plus, it's easy to clean, hygienic and available in a vast choice of colours and designs.
